

# Save the Date

## NCODA 2026 GLOBAL ONCOLOGY & HEMATOLOGY CONGRESS

March 11-12, 2026 | Dublin, Ireland *at*  
The Shelbourne Autograph Collection

Join global leaders in oncology, hematology, diagnostics, and technology for a two-day collaborative meeting that bridges innovation and patient-centered care. With impactful sessions and participation from international experts, the NCODA Global Oncology & Hematology Congress will advance best practices in patient-centered oncology care and strengthen partnerships across disciplines and borders.

### Highlights

- Networking with global thought leaders and industry innovators
- Focused discussions on oncology, hematology, diagnostics, and technology
- Opportunities to connect with NCODA leaders, members, and international partners

### Who Should Attend?

- **Oncology & Hematology Professionals:** Prescribers, pharmacists, nurses, technicians, and administrators committed to advancing patient-centered care
- **Trainees:** Students, residents, and fellows pursuing professional development in oncology and hematology
- **Industry Partners:** Representatives from pharmaceutical, life sciences, biotechnology, diagnostics, and technology organizations engaged in supporting and enhancing cancer care

# Sponsorship Prospectus

## Overview

The NCODA 2026 Global Oncology & Hematology Congress provides a unique platform for engagement among leading oncology and hematology stakeholders, advancing innovation in cancer care delivery. Sponsors will have the opportunity to align with NCODA's global mission, gain international exposure, and engage directly with decision-makers in oncology care. More than 200 global participants are expected to convene in Dublin.

## Why Partner with NCODA?

- Reach international oncology and hematology professionals across care settings
- Participate in shaping the global dialogue on patient-centered oncology
- Build meaningful partnerships with NCODA members and affiliated global organizations
- Showcase innovation and leadership in a growing international network
