## **NCODA Welcomes Three New Executive Council Members**

**Cazenovia, NY** - The National Community Oncology Dispensing Association, Inc. (NCODA) is pleased to announce the addition of three new members to the Executive Council. Randy Erickson, RN, BSN, MBA, James Gilmore, PharmD, and Kirollos Hanna, PharmD, BCPS, BCOP joined the Council in March.

Randy Erickson currently serves as Chief Executive Officer at Utah Cancer Specialists in Salt Lake City, UT. He is a skilled healthcare professional with over 20 years of clinical experience. In his current role as CEO, Randy helps set the strategic course for the practice. Utah Cancer Specialists is the largest community-based oncology and hematology treatment practice in Utah, with physicians providing medical oncology, hematology, radiation oncology, and imaging services. "Cancer care has become increasingly complex and with more oral therapies available, providing high quality care to our patients has never been more important. The overall patient experience is enhanced when physicians are able to dispense these medications within their own practices. NCODA is the perfect partner in helping practices improve pharmacy operations and enhance patient care," said Randy.

James Gilmore is the Executive Vice President at Georgia Cancer Specialists (GCS). GCS is a national leader in advanced cancer treatment and research. Their 50 physicians provide care in 26 Northside Hospital Cancer Institute locations across Metro Atlanta, and North and Central Georgia. "I am very honored to serve on the Executive Council of NCODA. It has become one of the most important organizations in the oncology space. I look forward to helping NCODA to continue to grow and to ensure that our patients have access to live-saving therapies for years to come", said Gilmore.

Kirollos Hanna is board certified by the Board of Pharmacy Specialties in Oncology Pharmacy and Pharmacotherapy. He is currently an Assistant Professor of Pharmacy at the Mayo Clinic College of Medicine. He primarily practices Hematology/Oncology pharmacy at the University of Minnesota Medical Center and Mayo Clinic. "It is an honor and privilege to serve patients through NCODA. The rapid growths in oral oncology therapeutics and practices have created large gaps in optimizing care and streamlining dispensing. As a firm believer in the NCODA mission of a patient-centered, medically-integrated dispensing model, I will continue to advocate for patients and best-practice initiatives", said Hanna. Kirollos is an active member in NCODA committees and initiatives. He serves on the advisory board for the Treatment Support Kit (TSK) initiative, he is editor for the Positive Quality Intervention (PQI) initiative, he is serves on the oral chemotherapy education (OCE) steering committee, and he also serves as part of the editorial board for NCODA's publication, *Oncolytics Today*.
