

- NCODA International Spring Forum
- April 27-29, 2022 | Atlanta, Marriott Marquis, Atlanta, GA
- Jointly provided by Partners for Advancing Clinical Education (PACE) and NCODA

Target Audience

This activity is intended for oncology healthcare providers that include; pharmacists, pharmacy technicians, physicians and nurses who care for patients within oncology.

Educational Objectives

Upon completion of this activity, participants should be able to:

- Evaluate the utility of new treatment options across hematologic and oncologic disease states
- Review the relevant primary literature to support treatment decisions and guideline changes in hematology and oncology practice
- Recognize key differences in adverse event profiles, drug interactions, and the overall management of different oncologic treatments in the same line of therapy
- Create individualized care plans for patients receiving novel therapies
