Medically-Integrated Oncology Pharmacy Residency Program FAQs

1. What are the job opportunities after completion?

- After completion of this program residents will be positioned to enter a number of different oncology fields including:
 - Medically Integrated Oncology Practice
 - Medically Integrated administration and leadership
 - Academia
 - Pharmaceutical Industry
 - Oncology Research

2. Is this program accredited?

- Programs will be entering into an NCODA MIOP accreditation pilot with the goal to be fully accredited in 2024.
- Residents completing the MIOP Residency Program will be recognized for their outstanding accomplishment as a graduate of a Medically Integrated Oncology Program.

3. How many positions are open?

- There are 3 programs participating in the residency program.
- Each program will take 1 resident for the 2023-2024 cycle (3 total positions).

4. What is the application process?

- Applications are sent to NCODA through the [MIOP Webpage](#).
- NCODA screens the applicants and distributes the application information to the programs.
- The program directors will reach out for interviews.

5. Can I apply to a specific program?

- Candidates are able to apply to a specific program or submit an application to all the programs offering positions.
- This should be noted when filling out the application.

6. Is the Residency at one practice or multiple?

- Residents will complete the entire residency in affiliation with the program they are accepted to.
- Outside program collaboration is allowed if approved by the individual MIOP site.

7. Will you rotate to multiple sites?

- Depending on the program, residents will either be in the same clinic for all of their rotations or rotate between different locations within reasonable distance to the primary location.
- The primary locations will be:
 - Texas Oncology: Dallas/Fort Worth, TX
 - Florida Cancer Specialists: Ft. Myers, FL
 - Hematology Oncology Associates of Central New York: Syracuse, NY

8. Who qualifies to apply for this program?

- Candidates must be graduates of an ACPE-accredited school of pharmacy. Additionally, candidates must be eligible for state board examination and meet all requirements for licensure.
- This includes working pharmacists interested in starting a career in oncology.

9. Application Fee?

- There is no application fee to apply for this program

10. Housing

- Residents will be required to find housing near the required location.

11. Pay/Benefits

- Residents will receive a competitive resident salary (~25% higher than the average pharmacy resident salary) and be recognized as full-time employees for the practice.

12. BCOP Examination

- The resident will be eligible to sit for the BCOP examination upon completion of the residency and an additional 3 years of oncology practice.
