

# EFFECTIVE PRACTICES IN PATIENT NAVIGATION

**Moderator - Marie Garcia RN OCN, Virginia Cancer  
Specialists**

**Co-Moderator- Mary Anderson RN BSN OCN, Norton  
Cancer Institute**

# LEARNING OBJECTIVES

- Each attendee will understand the key elements to establishing a patient navigation program
- Each attendee will be able to identify at least 2-3 metric to use for outcomes around navigation and adherence
- Each attendee will be able to identify essential data to present to key stakeholders for approval to develop a patient navigation program

# BREAK OUT GROUP INSTRUCTIONS

- Each group will have the following
  - NCODA members with Navigation already
  - NCODA members with NO Navigation
  - Administrators
- Each group will help develop a navigation program, using the flip chart start to build your program- you will be given a guideline to help aid in the discussion as you build your program
- Pick a team lead to report out your program
